

Health & Safety Policy

The core business of ECEX Ltd is the provision of mechanical engineering solutions, bespoke metal fabrication and building energy conservation.

Throughout this and all other business activities ECEX Ltd is committed to continual improvement of its health and safety performance.

To this end ECEX Ltd will endeavour to:

- Implement, maintain and continually improve a documented management system which complies with the requirements of BS ISO 45001:2018.
- Systematically identify and reduce where it is practicable to do so significant health and safety hazards and risks.
- Discuss with employees any matters relating to health and safety issues
- Comply with all relevant health and safety legislation and other requirements
- Periodically set and review health and safety objectives and targets
- Provide training relating to health and safety issues
- Provide sufficient resources to implement this policy to meet its objectives and targets
- Ensure this policy is available to all interested parties both internally and external to the organisation

The ultimate responsibility for health and safety within the organisation lies with the Managing Director who will ensure it is given equal priority with other major business objectives.

This policy will be revised and updated as necessary by Safety, Health Environmental & Quality Manager

John Grenville
Managing Director
